1. Please provide a summary of the purpose of this legislation (Justification Statement).

The purpose of this legislation is to authorize the Mayor to execute an appropriate Contractual Agreement.

2. Please provide background information regarding this legislation.

The City of Atlanta's Department of Aviation has identified a Capital Improvement Program for Hartsfield-Jackson Atlanta International Airport as part of the current Airport Master Plan process. To satisfy current aviation demand and forecasted growth, improvements to the airport's infrastructure are needed.

The Scope of Work associated with this Contract will primarily be in the renovation and maintenance of existing commercial / industrial facilities and systems at Hartsfield-Jackson Atlanta International Airport on a task order by task order basis.

A review of the construction service requirements for the Department of Aviation and the Hartsfield-Jackson Development Program for Contract Year 2008 and beyond indicates a substantial construction workload in support of the continued Airport expansion projects.

The City issued an RFP to procure these construction services on September 17, 2007. On November 15, 2007 Seventeen (17) firms responded to the solicitation.

The Department of Aviation conducted evaluation of the written response to the RFP to determine which Proponents were best qualified to perform the work based on the evaluation criteria described in Part III of the RFP. The City's emphasis was based on the Proponent's past performance, experience, and cost proposal.

The selected Business Managing General Contractor will perform services as may be required by the City, which may include but are not limited to the Capital Improvement Program and other passenger and facility improvements as directed by the City.
